This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

REPORT

OF

THE COMMISSIONER OF INTERNAL REVENUE.

TREASURY DEPARTMENT,
OFFICE OF COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., November 1, 1897.

SIR: In compliance with your instructions, I have the honor to submit the following report of the operations of the Bureau of Internal Revenue for the fiscal year ended June 30, 1897, and also certain additional information relating to the work performed, and the receipts from the various sources of internal revenue, during the months of July, August, and September of the current fiscal year:

The titles of the tables found at the close of the bound volume of this report are as follows:

Table A, showing the receipts from each specific source of internal revenue and the amounts refunded in each collection district, State, and Territory of the United States for the fiscal year ended June 30, 1897.

Table B, showing the number and value of stamps for special taxes, manufactured tobacco, snuff, cigars, cigarettes, distilled spirits, fortified sweet wine, fortified wine for export, fermented liquors, oleomargarine, filled cheese, export stamps for distilled spirits, playing cards, and opium manufactured for smoking purposes; also the number of the different kinds of certificates of registry, with the number and value of documentary stamps used for validating unstamped instruments, issued to collectors of internal revenue during the fiscal year ended June 30, 1897.

Table C, showing the percentages of receipts from the several general sources of internal revenue now taxable in each State and Territory of the United States to the aggregate receipts from the same sources, by fiscal years, from July 1, 1863, to June 30, 1897.

Table D, showing the aggregate receipts of internal revenue in each collection district, State, and Territory of the United States, by fiscal years, from September 1, 1862, to June 30, 1897.

Table E, showing the receipts from specific and general sources of internal revenue, by fiscal years, from September 1, 1862, to June 30, 1897.

Table F, showing the ratio of receipts from specific sources of internal revenue to the aggregate receipts of the same, by fiscal years, from July 1, 1863, to June 30, 1897.

Table G, showing the returns of distilled spirits, fermented liquors, manufactured tobacco, snuff, cigars, and cigarettes, under the several acts of legislation and by fiscal years, from September 1, 1862, to June 30, 1897; also statement of the production of distilled spirits and fermented liquors in the several States and Territories, by fiscal years, from July 1, 1877, to June 30, 1897.

Table H, showing the receipts from special taxes in the several States and Territories for the twelve months ended June 30, 1897.

Table I. Abstract of reports of district attorneys concerning suits and prosecutions under the internal-revenue laws during the fiscal year ended June 30, 1897.

Table K. Abstract of seizures of property for violation of internal-revenue laws during the fiscal year ended June 30, 1897.

Table L, showing the collections, expenses, and percentage cost of collection in the several collection districts during the fiscal years ended June 30, 1896 and 1897.

COLLECTIONS FOR THE FISCAL YEAR ENDED JUNE 30, 1897.

In the last annual report from this Bureau, it was estimated that the receipts from all sources of internal revenue for the fiscal year ended June 30, 1897, would aggregate $150,000,000. The actual receipts were $146,619,593.47, being $3,380,406.53 less than the amount estimated.

RECEIPTS FOR THE PAST TEN FISCAL YEARS.

Fiscal year ended—	
June 30, 1897	$146,619,593.47
June 30, 1896	146,830,615.66
June 30, 1895	143,246,077.75
June 30, 1894	147,168,449.70
June 30, 1893	161,004,989.67
June 30, 1892	153,857,544.35
June 30, 1891	146,035,415.97
June 30, 1890	142,594,696.57
June 30, 1889	130,894,434.20
June 30, 1888	124,326,475.32

ESTIMATED RECEIPTS FOR THE CURRENT FISCAL YEAR.

A comparison of the aggregate receipts from all sources of internal revenue for the months of July, August, and September, 1897, with the receipts for the same months of 1896, shows a net increase in favor of the months of the current fiscal year of $5,997,745.93.

While this marked increase was doubtless due to some extent to the abnormal conditions growing out the changes in the rates of taxation on fermented liquors and cigarettes made by the act of July 24, 1897, yet a careful consideration of the business conditions of those industries yielding internal revenue induces the belief that material changes for the better are to be reasonably expected.

I, therefore, estimate that the receipts from all sources of internal revenue for the current fiscal year will aggregate at least $155,000,000

Schedule of articles and occupations subject to tax under the internal-revenue laws of the United States in force November 1, 1897.

COST OF COLLECTION.

The cost of collection for the past fiscal year, distributed among the different items of appropriation, was approximately as follows:

For salaries and expenses of collectors, including pay of deputy collectors, clerks, etc., and including expenses incident to enforcing the provisions of law taxing oleomargarine	$1,727,495.21
For salaries and expenses of revenue agents, surveyors of distilleries, gaugers, storekeepers, and miscellaneous expenses	1,777,822.05
For paper for internal-revenue stamps	37,313.34
For expenses of detecting and punishing violations of internal-revenue laws	49,218.68
For salaries of officers, clerks, and employees in the office of Commissioner of Internal Revenue	256,620.21
Total amount expended	3,848,469.49

PERCENTAGE OF COST OF COLLECTION.

The percentage of cost of collection is 2.62 per cent. The expenses for the previous fiscal year were $4,086,292.47, or 2.78 per cent of the collections for that year, the figures indicating a slight decrease in the percentage of cost for the fiscal year just ended.

MISCELLANEOUS EXPENSES.

The act of Congress approved August 7, 1882, making provision for sundry civil expenses for the year ended June 30, 1883, required the Commissioner of Internal Revenue to make a detailed statement of all miscellaneous expenditures in the Bureau of Internal Revenue for which appropriation was made in that act. In accordance with this requirement, I submit the following detailed statement of miscellaneous expenses incurred:

Telegraphing on public business	$412.85
Locks for use at distilleries	2,015.06
Hydrometers used in gauging spirits	5,487.50
Weighing beams for use in weighing spirits	563.91
Expenses of testing spirits weighed, labor, etc	23.34
Steel canceling dies	18.60
Saccharometers and chemicals for testing sweet-wine samples and oleomargarine	72.65

MISCELLANEOUS EXPENSES—continued.

Stationery for internal-revenue officers	$300.98
The Internal Revenue Record supplied to internal-revenue officers	2,242.31
The Federal Reporter for the office of the Commissioner of Internal Revenue	17.50
Traveling expenses of clerks and chemist under special orders of the Department	79.33
Expenses of seizures and sales by collectors	518.01
Total	11,752.04

ESTIMATED EXPENSES FOR NEXT FISCAL YEAR.

I estimate the expenses of the Internal-Revenue Service for the fiscal year ending June 30, 1899, as follows:

For salaries and expenses of collectors, including pay of deputy collectors and surveyors and clerks, and expense of enforcing the act of August 2, 1886, taxing oleomargarine, and the act of August 4, 1886, imposing on the Government the expense of the inspection of tobacco exported, and the act of June 6, 1896, imposing a tax on filled cheese	$1,850,000
For salaries and expenses of 20 revenue agents, for fees and expenses of gaugers, for salaries of storekeepers, and for miscellaneous expenses	2,150,000
For paper for internal-revenue stamps	40,000
For detecting and bringing to trial and punishment persons guilty of violating the internal-revenue laws, including payment for information and detection	75,000
For salaries of officers, clerks, and employees in the office of the Commissioner of Internal Revenue	259,090
Total	4,374,090

SALARIES.

I have the honor to recommend that Congress appropriate for the fiscal year ending June 30, 1899, the sum of $259,090, as salaries for the following officers, clerks, and employees in this Bureau:

One Commissioner, at	$6,000
One Deputy Commissioner, at	3,200
One chemist, at	2,500
Two heads of division, at	2,500
Five heads of division, at	2,250
One superintendent of stamp vault, at	2,000
One stenographer, at	1,800
Twenty-four clerks, at	1,800
Twenty-four clerks, at	1,600
Thirty-four clerks, at	1,400
Twenty-four clerks, at	1,200
Thirteen clerks, at	1,000
Forty clerks, at	900
Two messengers, at	840
Fourteen assistant messengers, at	720
Thirteen laborers, at	660

An aggregate of 200 persons.

I also recommend the appropriation of the sum of $2,500 as salaries for one stamp agent at $1,600 and one counter, at $900, the same to be reimbursed by the stamp manufacturers, as provided by the act of August 5, 1882.

SCALE OF SALARIES OF COLLECTORS.

The recommendations made for the salaries of collectors are based upon an estimate of their probable collections according to the following scale, with the qualification that if the actual collections should vary from the amounts estimated, the salaries will be readjusted at the end of the fiscal year:

For collection of—	Salary.	For collection of—	Salary.
$25,000 or less	$2,000	$375,001 to $425,000	$3,375
25,001 to $37,500	2,125	425,001 to 475,000	3,500
37,501 to 50,000	2,250	475,001 to 550,000	3,625
50,001 to 75,000	2,375	550,001 to 625,000	3,750
75,001 to 100,000	2,500	625,001 to 700,000	3,875
100,001 to 125,000	2,625	700,001 to 775,000	4,000
125,001 to 175,000	2,750	775,001 to 850,000	4,125
175,001 to 225,000	2,875	850,001 to 925,000	4,250
225,001 to 275,000	3,000	925,001 to 1,000,000	4,375
275,001 to 325,000	3,125	1,000,001 and upward	4,500
325,001 to 375,000	3,250		

In addition to the salary based upon the above-mentioned scale, the collector shall receive a commission of one-half of 1 per cent on tax-paid spirit stamps, and may receive additional compensation on account of territorial extent, as provided by law, provided the gross compensation does not exceed $4,500. (See sections 3148 and 3314, Rev. Stat.)

OFFICIAL FORCE.

The force connected with this Bureau during the fiscal year which ended June 30, 1897, in the various districts throughout the United States, as reorganized under the Executive order of May 21, 1887, was 63 collectors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
33	$4,500	4	$3,875	5	$3,000
1	4,375	4	3,625	3	2,875
2	4,250	2	3,500	2	2,750
1	4,125	2	3,375	1	2,625
1	4,000	1	3,250	1	2,500

There were also employed 958 deputy collectors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
22	$2,000	34	$1,300	9	$500
11	1,900	169	1,200	1	480
33	1,800	127	1,100	1	425
1	1,750	136	1,000	11	400
10	1,700	2	950	4	360
31	1,600	64	900	27	300
2	1,550	4	850	3	250
59	1,500	23	800	2	240
9	1,450	1	750	7	200
119	1,400	5	700	1	150
1	1,350	25	600	4	120

There were also employed in the offices of the different collectors 185 clerks, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
1	$1,800	8	$1,150	9	$700
2	1,600	6	1,100	2	650
3	1,500	30	1,000	11	600
9	1,400	34	900	1	500
4	1,300	18	800	1	400
1	1,250	5	750		
38	1,200	2	720		

Also 23 porters, messengers, or janitors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
5	$600	5	$400	1	$200
3	500	2	300	1	120
4	480	1	240	1	100

At the close of the year ended June 30, 1897, 202 officers, clerks, messengers, and laborers were employed in this Bureau, and the aggregate amount paid during the year for their salaries was $256,620.21.

STOREKEEPERS, GAUGERS, ETC.

There were also employed 587 gaugers, who received fees not to exceed $5 per day, 405 storekeepers, and 1,430 storekeepers and gaugers, whose pay did not exceed $4 per day, and 5 distillery surveyors. All the foregoing officers are paid only when actually employed.

Storekeepers are assigned to those distilleries only which have a surveyed daily capacity exceeding 100 bushels, and are paid such compensation as may be prescribed by the Commissioner of Internal Revenue, not to exceed $4 per day.

Storekeepers and gaugers are assigned to distilleries having a capacity of 100 bushels or less, which are in operation, and to distilleries of a capacity not exceeding 500 bushels, when under suspension. When the business of bottling spirits in bond is carried on at a distillery of the latter class, if the increase of work so requires, officers performing the separate duty of storekeeper and of gauger are assigned thereto.

Under the act of August 28, 1894, storekeepers and gaugers may now be assigned to perform the separate duties of a storekeeper at any distillery, or at any general or special bonded warehouse, or to perform any of the duties of a gauger, under the internal-revenue laws.

The pay of storekeepers and gaugers assigned to distilleries whose registered daily capacity is 20 bushels or less, is fixed by law at $2 per diem. The pay of those assigned to larger distilleries has been graded according to the following scale:

Compensation of storekeepers and gaugers assigned to distilleries in operation having a surveyed daily capacity exceeding 20 bushels, and not exceeding 40 bushels, $3 per day; compensation of those assigned to distilleries having a surveyed daily capacity exceeding 40 bushels, and not exceeding 60 bushels, $3.50 per day; compensation of those assigned to distilleries having a surveyed daily capacity exceeding 60 bushels, $4 per day.

The compensation of such officers assigned to distilleries under suspension having a surveyed daily capacity not exceeding 20 bushels, and having not exceeding 5,000 gallons of spirits in the distillery warehouse, is $2, for such days only as the officer is required to be in attendance to make withdrawals of spirits, or for other necessary purposes; when the quantity of spirits in warehouse of a suspended distillery having a daily capacity not exceeding 500 bushels, exceeds 5,000 gallons, and does not exceed 25,000 gallons, the compensation is $2 per day of constant attendance; when the quantity exceeds 25,000 and does not exceed 100,000 gallons, $3 per day; and when the quantity exceeds 100,000 gallons, $4 per day.

GENERAL CONDITION OF THE OFFICE AND THE SERVICE.

The work of the Bureau, both in this office and in the field, is well advanced and fully up to date. The efficient and faithful services of the officers and employees who have contributed to produce this result are highly appreciated, and deserve warm commendation.

While this report shows the amount expended from the appropriation for the discovery of violations of internal-revenue law, it does not exhibit the correct results obtained thereby, for the reason that many cases discovered within the time named are before the courts or pending a settlement by offers in compromise under consideration in this office, the aggregate results of which would materially increase the sums reported.

In some districts the reports show violations of law discovered and seizures of property and assessments resulting therefrom, while but little, and in some instances none, of the appropriation for the discovery of violations of law was expended. It will also be observed that these

results are generally reported in districts where no illicit production of spirits is discovered. The larger portion of this appropriation is necessarily used in those parts of the country where illicit distillation is carried on to a considerable extent.

The seizure of illicit stills within the last few years has greatly increased. This matter should receive serious consideration. In 1894, 1,016 unregistered stills were seized. Since that time seizures of this character have gradually increased until during the last fiscal year they reached the unprecedented number of 2,273. The cause of the increased illicit production of spirits is, no doubt, in a great degree attributable to the increased tax on that product.

The suppression of frauds of this character is very difficult. Stills are illicitly operated in many parts of the country, but they are particularly numerous in the more remote localities and in the mountain regions of several of the Southern States, and on this account extraordinary measures must be taken to discover and seize them. Collectors allege that the means at their hands are entirely inadequate for this purpose, and hence the appropriation for the discovery of violations of internal-revenue laws must be depended upon for this work. The appropriation for the last three or four years has been insufficient for this and other purposes for which it is provided. I therefore recommend that it be considerably increased for the next fiscal year.

MANUFACTURE OF STAMP PAPER.

After due advertisement in the public prints, and by Department circular, for proposals to furnish stamp paper for the fiscal year ending June 30, 1898, five sealed bids were presented, which were opened on the 28th day of April, 1897, in the office of the Commissioner of Internal Revenue, by a committee appointed by the honorable Secretary of the Treasury to open and consider such bids as might be presented. The various bids submitted having been duly considered, the committee

recommended an award of contract to the lowest and best bidder whose proposal conformed to the terms of the circular inviting such bids. Accordingly, the contract was awarded on the 1st day of May, 1897, to the New York and Pennsylvania Company, of New York, at 4.5 cents per pound, including cost of transportation and delivery at the Treasury Department, this being at the same rate as the contract price for the previous year.

PRODUCTION OF STAMPS.

All of the stamps used by this Bureau are engraved and printed by the Bureau of Engraving and Printing, with the exception of stamps for tobacco imprinted on foil wrappers, which have been printed and furnished by the John J. Crooke Company, of New York, under a contract which provides that the imprinting of such stamps shall be without cost to the Government, the contractors receiving such remuneration from the manfacturers of tobacco as may be agreed upon between them, and reimbursing the Government for the salaries of one stamp agent for the United States, and one counter, amounting to $2,500 per annum.

NEW CLASSES OF STAMPS ADDED UNDER RECENT ACTS OF CONGRESS.

Stamps representing the tax on filled cheese, and the special taxes on the manufacturers of and wholesale and retail dealers in filled cheese, in accordance with the provisions of the act of June 6, 1896, imposing a tax of 1 cent per pound on domestic filled cheese; 8 cents per pound on filled cheese imported; and special taxes of $400 per annum on the manufacturer thereof; $250 per annum on the wholesale dealer, and $12 per annum on the retail dealer therein, have been prepared and issued since the report for the last fiscal year.

Under the provisions of "An act to allow the bottling of distilled spirits in bond," approved March 3, 1897, case stamps, with attached bottle stamps, to be used in the bottling of distilled spirits, have been prepared and issued. Case stamps for tax-paid spirits bottled in bond are in four denominations, viz: 3 gallons for cases containing 12 bottles of 1 quart each, with strip stamp attached for each bottle; 2.4 gallons for cases containing 12 bottles of one-fifth gallon each, with a strip stamp for each bottle; 3 gallons for cases containing 24 bottles of 1 pint each, with a strip stamp for each bottle, and 3 gallons for cases containing 48 bottles of one-half pint each, with a strip stamp for each bottle. These stamps are bound in books, each case stamp having a cash value of 10 cents. Stamps of the same denomination and value, but differing in design, are being prepared for distilled spirits bottled for export.

STOCK OF STAMPS IN VAULT.

The stock of stamps in the vaults of this office October 1, 1897, of the various classes and denominations, was 199,174,038, and the value of same $64,222,147.91.

TOBACCO DIVISION.

The United States is the largest tobacco-growing country in the world. Other leading tobacco-growing countries of prominence are Austria-Hungary, Germany, Russia, British India, Dutch East Indies, France, and Japan.

The production of the United States is estimated at about 500,000,000 pounds annually, and the area devoted to the crop is about 700,000 acres, or 1,094 square miles.[1] (Census Report of 1890. Production and Distribution of the Principal Agricultural Products of the World, Department of Agriculture.)

The States of Kentucky, North Carolina, and Virginia lead in the area devoted to the cultivation of tobacco.

The total production of European countries is about 443,000,000 pounds, and they import about 350,000,000 pounds annually.

Tobacco is one of our leading articles of domestic export. Our exports are mainly to Great Britain, Germany, France, and other European countries.

The quantity of unmanufactured tobacco, including leaf, stems, and trimmings, exported during the fiscal year ended June 30, 1897, was 314,931,691 pounds, valued at $24,711,446.

During the fiscal year ended June 30, 1896, 295,539,312 pounds were exported.

Our imports of leaf are comparatively small, being mostly from the Dutch East Indies (Sumatra and Java), and Cuba. Importations from Germany and Mexico have increased during the past year and fallen off from Cuba.

The quantity of leaf tobacco imported into the United States during the fiscal year ended June 30, 1897, was 30,825,976 pounds, valued at $16,672,227.

DIFFERENT KINDS OF TOBACCO GROWN IN THE UNITED STATES.

Different types of tobacco are required for cigars, cigarettes, smoking and chewing, and different grades for wrappers and fillers of cigars and for plug tobacco.

Tobacco readily adapts itself to a wide range of climatic conditions, as seen in the distribution of the plant from Florida to Wisconsin.

On account of the difference in climate and soils, different kinds are produced in different States.

The main sorts of the Connecticut Valley crop are a wrapper and a binder leaf for cigars.

---

[1] The Census Report (1890) gives the following statistics relative to leaf tobacco production:

Number of planters	205,802
Acres	692,990
Pounds	488,255,896
Value	$34,844,449

The characteristic crop of Ohio used to be a wrapper, but in the change of styles from dark to light cigars the product of that State is adapted to the filler only.

In Pennsylvania the main dependence of the grower is a filler crop, and on the heavier limestone soils filler leaf only is produced.

In Wisconsin both filler and wrapper are produced.

White burley tobacco is grown on the limestone soils of the blue grass regions of Kentucky and Ohio.

The tobacco grown in Maryland and on the heavier soils of Virginia and North Carolina is used both for manufacturing purposes and for export. The larger portion of the product of Virginia is of the dark heavy variety for export.

The bright yellow tobacco of southern Virginia, North and South Carolina, and east Tennessee is grown upon a certain type of very sandy soil, and is used for smoking tobacco, cigarettes, and bright wrappers.

In Louisiana the variety of tobacco known as perique is raised in the Parish of St. James. The entire product of perique for the calendar year 1896 was 182,009 pounds.

Reports show that the culture of domestic leaf is being experimented with, with favorable results, in Florida. The leaf tobacco raised is from Havana and Sumatra seed, and very fine wrapper tobacco is being produced. The industry is attracting capital and skilled producers.

THE TAX ON TOBACCO.

Tobacco forms one of the chief sources of revenue in every civilized country. Early in the history of this country acts were passed levying taxes on the article. One of the first acts passed under the Constitution (the act of July 4, 1789) levied a duty of 6 cents per pound on manufactured tobacco imported.

In 1794 an internal-revenue tax was levied on snuff made in the United States. This tax was taken off in 1795 and in lieu thereof a tax was imposed on snuff mills, which was repealed in 1800. By the act of January 18, 1815, tobacco, cigars, and snuff made for sale within the United States were taxed 20 per cent ad valorem. This statute was repealed February 22, 1816.

No further internal-revenue taxes were imposed on tobacco until 1862, when, under the necessities of the war, it was deemed necessary to inaugurate the present internal-revenue system and to place a tax on tobacco. It was suggested by some that the tax should be collected directly from the leaf in the hands of the producer, but it was believed that such a method was inapplicable in this country, where it was so widely produced, and the tax was placed on the manufactured article. (Commissioner's Report, 1863, p. 7; Report 1864, p. 9.)

The rate of tax has been subject to frequent changes since the original act of July 1, 1862.

Specific taxes on cigars, graduated according to the values of the cigars, were first imposed.

Plug and fine-cut tobacco were mainly taxed 15 cents per pound until June 30, 1864, when the rate was increased to 35 cents and afterwards to 40 cents.

Smoking tobacco was first taxed 5 cents per pound. The rate was subsequently increased to 35 cents.

The manufacturer was originally required to make returns and pay taxes on the product the same as other manufacturers whose products were taxed.

By the act of July 20, 1868, the system was reorganized, and manufacturers were required to pack their product in prescribed packages, to which stamps denoting payment of the tax were required to be affixed.

PRESENT RATE OF TAX.

The present rate of tax under the act of July 24, 1897 (the Dingley bill), on cigars and cigarettes is $3 per thousand when they weigh over 3 pounds per thousand, and $1 per thousand when they weigh not over 3 pounds per thousand.

The present rate of tax on manufactured tobacco and snuff is 6 cents per pound, as established by the act of October 1, 1890 (the McKinley bill).

THE ACT OF JULY 24, 1897.

The act of July 24, 1897, provided as follows:

SEC. 10. That section thirty-three hundred and ninety-four of the Revised Statutes of the United States, as amended, be, and the same is hereby, further amended, so as to read as follows:

"Upon cigars which shall be manufactured and sold, or removed for consumption or sale, there shall be assessed and collected the following taxes, to be paid by the manufacturer thereof: On cigars of all descriptions made of tobacco, or any substitute therefor, and weighing more than three pounds per thousand, three dollars per thousand; on cigars, made of tobacco, or any substitute therefor, and weighing not more than three pounds per thousand, one dollar per thousand; on cigarettes, made of tobacco, or any substitute therefor, and weighing more than three pounds per thousand, three dollars per thousand; on cigarettes, made of tobacco, or any substitute therefor, and weighing not more than three pounds per thousand, one dollar per thousand: *Provided*, That all rolls of tobacco, or any substitute therefor, wrapped with tobacco, shall be classed as cigars, and all rolls of tobacco, or any substitute therefor, wrapped in paper or any substance other than tobacco, shall be classed as cigarettes.

"And the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall provide dies and adhesive stamps for cigars weighing not more than three pounds per thousand: *Provided*, That such stamps shall be in denominations of ten, twenty, fifty, and one hundred, and the laws and regulations governing the packing and removal for sale of cigarettes, and the affixing and canceling of the stamps on the packages thereof, shall apply to cigars weighing not more than three pounds per thousand.

"None of the packages of smoking tobacco and fine-cut chewing tobacco and cigarettes prescribed by law shall be permitted to have packed in, or attached to, or connected with, them, any article or thing whatsoever, other than the manufacturers' wrappers and labels, the internal-revenue stamp and the tobacco or cigarettes, respectively, put up therein, on which tax is required to be paid under the internal-revenue laws; nor shall there be affixed to, or branded, stamped, marked, written, or printed upon, said packages, or their contents, any promise or offer of, or any order or certificate for, any gift, prize, premium, payment, or reward."

This act made a new definition of cigars and cigarettes. Cigarettes with tobacco wrappers, which had been usually called "all-tobacco cigarettes," are now designated as cigars.

The tax on cigarettes weighing not more than 3 pounds per thousand is double the rate previously in force.

If cigarettes continue to be consumed as largely as ever, the collections from this source will be doubled and the increase in revenue from this source will be about $2,000,000 per annum.

Returns received since the act went into effect do not indicate any decrease in production.

WHEN THE LAW WENT INTO EFFECT.

The act of July 24, 1897, went into effect at midnight July 23, 1897, or at the first moment of July 24. (Department Circular No. 108.)[1]

[1] Contra, decision of the Board of General Appraisers in the case of Stoddard, Haserick, Richards & Co. *v.* Collector of Customs at Boston, 10 U. S. Revenue Journal, 377.

Collectors were instructed to have an inventory made of all cigarettes weighing not more than 3 pounds per thousand to which the manufacturer had, after the hour of midnight of July 23, 1897, affixed stamps at the old rate, to wit, 50 cents per thousand.

In cases where such cigarettes had been removed from the manufactory, or place where they were made, after the hour of midnight of July 23, stamped at the old rate of 50 cents per thousand, assessments were made against the manufacturer of the additional amount of 50 cents per thousand upon cigarettes so removed.

DEALERS IN LEAF TOBACCO.

Dealers in leaf tobacco are required to register with the collector of the district, to keep books, and to furnish statements as to sales under oath when required.

Dealers in leaf tobacco are those dealers who sell to three classes of persons, viz: (1) To other dealers in leaf tobacco; (2) to manufacturers of tobacco, snuff, and cigars; (3) to persons known to be purchasers of tobacco for export.

All restrictions whatsoever upon the farmer and grower in regard to the sale of leaf tobacco of his own production in its natural condition were removed by the act of August 28, 1894.

While the farmer is not restricted as to the sale of his leaf in its natural condition, the manipulation of it renders it liable to the tax. All tobacco is held to be manufactured that is in any manner changed after being dried and cured upon the farm where it is produced (except resweated), such as being sweetened, doubled, rolled, plaited, twisted by hand, or otherwise reduced to a condition to be consumed, even if prepared by a process, however simple, without the aid of any machine or instrument, and the same will be subject to the tax of 6 cents per pound, and the owner will be required to qualify as a manufacturer of tobacco.

There were 4,205 registered dealers in leaf tobacco in the United States during the last fiscal year.

The following statement shows the number in each collection district:

MANUFACTURERS OF TOBACCO.

The law defines a manufacturer of tobacco as one whose business it is to manufacture tobacco or snuff for himself, or who employs others to manufacture tobacco or snuff, whether such manufacture be by cutting, pressing, grinding, crushing, or rubbing of any raw or leaf tobacco, or otherwise preparing raw or leaf tobacco, or manufactured or partially manufactured tobacco or snuff, or the putting up for use or consumption of scraps, waste, clippings, stems, or deposits of tobacco resulting from any process of handling tobacco, or by the working or preparation of leaf tobacco, tobacco stems, scraps, clippings, or waste, by sifting, twisting, screening, or any other process.

Every person shall also be regarded as a manufacturer of tobacco whose business it is to sell leaf tobacco in quantities less than a hogshead, case, or bale; or who sells directly to consumers, or to persons other than duly registered dealers in leaf tobacco, or duly registered manufacturers of tobacco, snuff, or cigars, or to persons who purchase in packages for export; and all tobacco so sold by such persons shall be regarded as manufactured tobacco, and such manufactured tobacco shall be put up and prepared by such manufacturer in such packages only as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall prescribe.

The number of registered manufacturers of tobacco in the United States during the calendar year 1896 was 3,332.

Of this number some did not manufacture, but registered in order to dispose of tobacco on hand, and for the purpose of dealing in scraps, cuttings, and waste made by cigar manufacturers.

The total number who manufactured tobacco was 2,070.

In Louisiana all the tobacco manufactured was produced principally by three factories, a fourth commencing business near the close of December. All the other registered manufacturers were parties who raised "perique" tobacco.

Owing to the peculiar and exceptional method adopted by planters in curing and preparing this class of tobacco, producers of "perique" tobacco are required to qualify as manufacturers.

PEDDLERS OF TOBACCO, SNUFF, OR CIGARS.

Peddlers of tobacco, snuff, or cigars are required to register and give a bond, but are not required to pay any taxes under the internal-revenue laws.

Peddlers can only sell in original legal packages. Leaf tobacco can not be lawfully sold by peddlers unless put up in legal packages by a manufacturer of tobacco and stamped and labeled.

There were 2,353 registered peddlers in the United States during the last fiscal year. The following statement shows the States in which they registered and the number in each district:

INTERNAL-REVENUE COLLECTIONS FROM TOBACCO.

The aggregate amount of taxes collected from tobacco during the last fiscal year was $30,710,297.42.

This amount includes taxes paid on manufactured tobacco, snuff, cigars, and cigarettes, domestic and imported.

The internal-revenue taxes on imported manufactured tobacco, snuff, cigars, and cigarettes are the same as on domestic in addition to the import duties thereon.

The collections from each item were as follows:

Manufactured tobacco, chewing and smoking	$15,644,088.75
Snuff	796,118.37
Cigars	12,189,507.29
Cigarettes	2,080,583.01
	30,710,297.42
Collections for fiscal year ended June 30, 1896	30,711,629.11
Decrease	1,331.69

The collections on cigarettes, snuff, and manufactured tobacco increased, but the receipts from cigars fell off to the amount of $523,760.54.

The increase from the tax on cigarettes amounted to	$55,165.90
On manufactured tobacco	424,060.50
On snuff	43,202.45
Increase	522,428.85
Decrease in collections from cigars and cheroots	523,760.54
Net decrease	1,331.69

STATEMENT SHOWING THE AMOUNT OF INTERNAL-REVENUE TAXES COLLECTED FROM TOBACCO FOR THE PAST TEN YEARS.

1892	31,000,493.07	1897	30,710,297.42

The amount received from special taxes relating to tobacco is included in the above up to the time such taxes were repealed, May 1, 1891 (act of October 1, 1890).

The total collections from September 1, 1862, to June 30, 1897, from tobacco of all descriptions, including special taxes, amount to $1,059,900,901.77.

Table E in the Appendix at the close of the bound volume of this report shows the receipts from this source by fiscal years from September 1, 1862.

QUANTITY TAXED.

The figures given below represent the quantity of manufactured tobacco, snuff, cigars, and cigarettes upon which taxes were collected during the last two fiscal years:

Articles taxed.	Fiscal years ending June 30—		Increase.

Tobacco, chewing and smoking ... do	253,667,137	260,734,812	7,067,675

a Decrease, 174,586,846.

There was an increase in the quantity of manufactured tobacco, snuff, and cigarettes upon which tax was paid over the previous fiscal year, and a decrease in the number of cigars.

QUANTITY EXPORTED.

There was also produced the following quantity of tobacco, snuff, and cigars which were exported without payment of tax during the last fiscal year:

Tobacco and snuff[1]	pounds	16,879,743
Cigars	number	1,411,194
Cigarettes	do	892,956,300

being an increase in the quantity of tobacco and snuff exported over the previous year of 3,844,725 pounds, and an increase in the quantity of cigars of 405,783, and in the quantity of cigarettes of 264,869,910.

PRODUCTION OF TOBACCO, SNUFF, CIGARS, AND CIGARETTES DURING THE FISCAL YEAR 1897.

The total production of tobacco, snuff, cigars, and cigarettes in the United States for the fiscal year ended June 30, 1897, is computed from the receipts for taxes on all such goods put on the market for consumption. The quantity removed in bond for export without payment of the tax is added, and from this amount the quantity imported for consumption, upon which the internal-revenue tax was paid in addition to customs duties, is deducted.

SUMMARY STATEMENTS SHOWING PRODUCTION OF PREVIOUS YEARS.

The following statements show the quantity of tobacco, snuff, cigars, and cigarettes manufactured in the United States during the past ten calendar years.

The statements are made by calendar years, as the law requires the annual inventory of manufacturers to be taken on the first day of January of each year.

[1] The statistics in regard to importations were obtained from the Bureau of Statistics.

TABULAR STATEMENTS

SHOWING DETAILS RESPECTING THE MANUFACTURE OF TOBACCO, SNUFF, CIGARS, AND CIGARETTES FOR THE CALENDAR YEAR 1896.

The following tables show the manner in which the manufacture of cigars and cigarettes is distributed among the different States and districts, the number of persons and firms engaged in each of the two branches of manufacturing, the quantity of different kinds of material used, and the quantity and kinds of product manufactured. These tables are compiled from reports received from collectors of internal revenue of the transactions of manufacturers in their several districts for the calendar year ended December 31, 1896, a period of time differing from the fiscal year ended June 30, 1897, which will account for any apparent discrepancies between them and the previous part of the report relating to tobacco.

Tables Nos. 1 and 2 relate to the manufacture of cigars and cigarettes.

The total number of cigar manufacturers for which accounts were rendered for the calendar year 1896 were 31,401.

The total number of cigars made was 4,048,463,306, a decrease of 50,674,549 from the previous year.

The total number of cigarettes made was 4,967,444,232, an increase of 729,689,779 over the previous year.

The quantity of leaf tobacco used in making cigars varies in different districts from 12 pounds per thousand cigars to 24 pounds per thousand. The average quantity was 18.75 pounds per thousand cigars.

The quantity used in making cigarettes varies from 1.32 pounds per thousand to 4⅛ pounds per thousand. The average quantity was 3.85 pounds per thousand cigarettes.

The total quantity of leaf tobacco used in making cigars was [illegible]8,866 pounds.

The total quantity used in making cigarettes was 19,114,190 pounds.

The States in which the largest quantity of cigars were made were Pennsylvania and New York.

Cigarettes were made mostly in New York, Virginia, and North Carolina.

Tables Nos. 3, 4, 5, and 6 relate to tobacco and snuff.

There was an increase of 66 in the number of tobacco factories operating over the previous calendar year.

There was a decrease in the quantity of leaf tobacco used of 16,716,592 pounds, and a decrease in all other materials used except scraps.

There was an increase of 1,821,210 pounds in the quantity of snuff manufactured, and of 1,207,686 pounds of smoking tobacco, and a decrease in the quantity of plug and fine cut manufactured, as follows:

	Pounds.
Plug tobacco	14,400,306
Fine-cut tobacco	1,503,639

The States in which the largest quantities of chewing and smoking tobacco were manufactured are Missouri, Kentucky, Virginia, North Carolina, and Ohio, as follows:

	Pounds.
Missouri	52,861,260
Kentucky	38,028,134
Virginia	31,247,410
North Carolina	24,609,214
Ohio	17,979,837

The district in which the largest quantity of tobacco was manufactured was the First Missouri, in which the returns show the manufacture of 52,485,394 pounds.

New Jersey and Pennsylvania were the largest snuff manufacturing States.

Snuff was manufactured more or less in 27 districts, and there were 124 factories.

The largest snuff-producing district was the Fifth New Jersey, in which 4,591,366 pounds were produced.

Average quantity of leaf tobacco used per capita of population	do	4.27

NOTE.—The population of this country was estimated by the actuary of the Treasury Department at 72,159,000 on the 1st day of January, 1897.

MANUFACTURE IN BONDED WAREHOUSES FOR EXPORT.

The act of August 28, 1894, provided as follows:

SEC. 9. That all articles manufactured in whole or in part of imported materials, or of materials subject to internal-revenue tax, and intended for exportation without being charged with duty and without having an internal-revenue stamp affixed thereto shall, under such regulations as the Secretary of the Treasury may prescribe, in order to be so manufactured and exported, be made and manufactured in bonded warehouses similar to those known and designated in Treasury Regulations as bonded warehouses, class six: *Provided*, That the manufacturer of such articles shall first give satisfactory bonds for the faithful observance of all the provisions of law and of such regulations as shall be prescribed by the Secretary of the Treasury: *Provided further*, That the manufacture of distilled spirits from grain, starch, molasses or sugar, including all dilutions or mixtures of them or either of them, shall not be permitted in such manufacturing warehouses.

Whenever goods manufactured in any bonded warehouse established under the provisions of the preceding paragraph shall be exported directly therefrom or shall be duly laden for transportation and immediate exportation under the supervision of the proper officer who shall be duly designated for that purpose, such goods shall be exempt from duty and from the requirements relating to revenue stamps.

The act of July 24, 1897 (sec. 15), contained the same provision. There are three tobacco manufacturers in the second district of Virginia who manufacture tobacco for export exclusively under the above-mentioned provisions of law and make no reports to this office. These factories were placed in the bonded manufacturing warehouse system, and thus transferred from the supervision of the collector of internal revenue to that of the collector of customs. From January 18 to December 31, 1896, the exports of tobacco from these factories aggregated 4,846,503 pounds. During the fiscal year from June 30, 1896, to June 30, 1897, their exports were 4,870,554 pounds.

ASSESSMENTS FOR DEFICIENCIES.

Assessments for deficiencies are made against manufacturers of tobacco, snuff, and cigars when there is satisfactory proof that such products have been removed from the manufactory without use of the proper stamps.

Upon the receipt at this office of the collectors' annual abstracts of cigar manufacturers' accounts and of tobacco manufacturers' accounts a careful examination is made, and whenever it is found that the manufacturer has failed to report manufactured products corresponding to the amount of materials had and used, or apparently used, and corresponding to what is known to be the average production from a given quantity of materials, an estimate is made of the deficiency and the amount of tax apparently omitted to be paid computed. Statements are prepared and sent to collectors, and manufacturers are notified and an opportunity is given to make explanation before the assessments are made.

The sum of $9,043.79 was assessed during the last fiscal year on tobacco, snuff, and cigars removed from the factory unstamped. (See statement on page 93.)

BONDS OF MANUFACTURERS OF TOBACCO AND CIGARS.

The regulations of this office require collectors, as often at least as once a year, to examine the bonds of manufacturers of tobacco and cigars in their respective districts and assure themselves of the continued responsibility of the sureties.

These bonds have been examined and new bonds required in cases where the old ones were defective, or where the sureties were not

deemed good and sufficient, or where on account of changes made it was deemed necessary or desirable to have the bonds renewed.

All current bonds of manufacturers on file in collectors' officers are believed to be in good condition.

PROVISION RESPECTING ARTICLES OF A FOREIGN NATURE INSIDE STATUTORY PACKAGES.

The last paragraph of section 10 of the act of July 24, 1897, above quoted, prohibits packages of smoking tobacco, fine-cut chewing tobacco, and cigarettes from having packed in, or attached to, or connected with them, "any article or thing whatsoever" of a foreign nature, and provides that there shall not be affixed to or branded, stamped, marked, written, or printed upon said packages, or their contents, any promise or offer of, or any order or certificate for, any gift, prize, premium, payment, or reward.

These provisions apply to cigars weighing not more than 3 pounds per thousand, as they are made by the same section subject to the law governing the packing and removal for sale of cigarettes.

Whether by accident or design, packages of plug tobacco, snuff, and cigars weighing more than 3 pounds per thousand are not included.

As these provisions were inserted in the bill while in conference, and without having passed either House, this office has not the benefit of the discussions in Congress which usually accompany measures proposed and enacted and throw light upon the object and purpose of the law.

Manufacturers have been notified of these provisions, and while there has been manifested in general a disposition to comply with the law, many complaints have been made as to its arbitrary features and doubts raised as to its constitutionality.

It will be observed that there is no penalty provided for its violation, and if there is any penalty it must be found in some other law previously passed. The removal of tobacco which is not put up in "proper packages" is a punishable offense under section 3374, Revised Statutes. The law also provides the penalty of forfeiture for removing tobacco otherwise than as provided by law. (Section 3372, R. S.)

It is doubtful if the courts would hold that the penalties provided by these sections are applicable, and the same may be said of section 3456, Revised Statutes, which is intended to cover by general provision those instances where acts have been enjoined or forbidden by the statute and no specific penalty elsewhere imposed.

As far as the protection of the revenue is concerned, this office does not regard such stringent provisions necessary. They cause annoyance to a large class of taxpayers without furnishing additional security to the Government in the matter of preventing fraud.

I would recommend that the law be amended so as to authorize the Commissioner to prescribe by regulations what statutory packages of tobacco, snuff, cigars, and cigarettes may contain, or authorize him to prohibit the packing in such statutory packages of articles which increase appreciably the size or weight of the package under penalty of seizure and forfeiture.

AMENDMENT PROPOSED RELATIVE TO PACKAGES OF SMOKING TOBACCO.

The smallest package of smoking tobacco which the law authorizes is a 2-ounce package.

Fine-cut chewing tobacco can be put up in 1-ounce packages.

It is frequently desired by manufacturers to put up smoking tobacco in 1-ounce packages, and there is no apparent reason for the discrimination.

I recommend that section 3362, Revised Statutes, as amended by the act of March 1, 1879, and the act of January 8, 1883, be amended by inserting after the words "in packages containing" and before the word "two," in the fourth paragraph of said section the word "one," so that said paragraph will read as follows:

All smoking tobacco and all cut and granulated tobacco other than fine-cut chewing, all shorts, the refuse of fine-cut chewing, which has passed through a riddle of thirty-six meshes to the square inch, and all refuse scraps, clippings, cuttings, and sweepings of tobacco, in packages containing one, two, three, four, eight, and sixteen ounces each.

OPIUM.

Section 36 of the act of October 1, 1890, provides that an internal-revenue tax of $10 per pound shall be levied and collected upon all opium manufactured in the United States for smoking purposes.

No person can engage in such manufacture who is not a citizen of the United States, and every manufacturer must furnish a bond in the penal sum of not less than $5,000.

There are no legal manufacturers of opium in this country, and practically no revenue derived from this source.

DIVISION OF LAW.

The following is an abstract of reports of district attorneys for the fiscal year 1896–97 of internal-revenue suits and prosecutions pending, commenced, and disposed of:

NOTE.—In the case of retail dealers in oleomargarine, the number of places where oleomargarine is sold or offered for sale is sometimes in excess of the number of persons who pay special taxes as retail dealers in oleomargarine. This is accounted for from the fact that one retail dealer in some cases pays more than one special tax for the privilege of offering oleomargarine for sale at more than one store or place of business.

The above note applies also to retail dealers in filled cheese.

COMPARATIVE STATEMENT OF DISTILLERIES REGISTERED AND OPERATED.

The whole number of grain distilleries registered during the fiscal year ended June 30, 1897, was 1,635, of which number 1,231 were operated.

The numbers registered and operated during the fiscal year ended June 30, 1896, were 1,833 and 1,351, respectively, showing a decrease during the last fiscal year of 198 in the number registered and of 120 in the number operated.

The decrease in the class of distilleries having the smaller capacities for the production of spirits was 174 in the number registered and 55 in the number operated.

In the class of larger distilleries there was a decrease of 24 in the number registered and of 65 in the number operated.

During the fiscal year ended June 30, 1896, there were registered 1,572 distilleries of the smaller class, varying in daily grain capacity from not over 5 to not over 60 bushels each, and of this number 1,156, or 73+ per cent, were operated.

Of the larger distilleries having daily grain capacities varying from over 60 bushels and not over 100 bushels to several thousand bushels each, 261 were registered and 195, or 74+per cent, were operated.

During the fiscal year ended June 30, 1897, of the smaller distilleries 1,398 were registered and 1,101, or 78+per cent, were operated.

Of the larger distilleries 237 were registered and 130, or 54+per cent, were operated.

There were 11 molasses distilleries registered and 10 operated, a decrease of 1 in the number operated in the previous fiscal year.

A very large decrease occurred in the number of fruit distilleries registered and operated, there having been 2,005 registered and 1,917 operated, a decrease from the previous fiscal year of 2,840 registered and 2,908 operated.

The total number of grain, molasses, and fruit distilleries registered during the fiscal year is 3,651, and the total number operated is 3,158, a decrease of 3,038 in the number of all kinds of distilleries registered, and of 3,029 in the number of all kinds of distilleries operated during the fiscal year ended June 30, 1897, as compared with the fiscal year ended June 30, 1896.

In this table, as prepared prior to the fiscal year ended June 30, 1896, the grain used included the molasses used for the production of spirits other than rum reduced to its equivalent in grain; and the spirits produced included the spirits produced from both grain and molasses.

The quantity of grain used for the production of spirits during the fiscal year ended June 30, 1897 (13,131,891 bushels), shows a decrease of 5,498,727 bushels from the quantity used in the preceding fiscal year (18,630,618 bushels), and is 8,240,173 bushels less than the average (21,372,064 bushels) for the last ten years.

The number of gallons of spirits produced from grain during the year (59,154,877) shows a decrease of 23,301,276 gallons from the product of the fiscal year ended June 30, 1896 (82,456,153 gallons), and is 33,300,522 gallons less than the average product (92,455,399 gallons) for the last ten years.

The yield of spirits from each bushel of grain is 4.50+ gallons.

The yield for the two preceding years was 4.32+ gallons for 1895 and 4.42+ gallons for 1896.

The quantity of molasses used for the production of spirits during the fiscal year ended June 30, 1897 (4,441,482 gallons), shows an increase of 933,873 gallons over the quantity used in the preceding fiscal year (3,507,609 gallons), and is 466,937 gallons more than the average (3,974,545 gallons) for the last two years.

The quantity of spirits produced from molasses during the fiscal year ended June 30, 1897 (3,310,771 gallons), shows an increase of 668,449 gallons over the product of the previous year (2,642,322 gallons), and is 334,225 gallons more than the average product (2,976,546 gallons) for the last two years.

The quantity of molasses used for the production of rum during the fiscal year ended June 30, 1897 (1,711,860 gallons) shows a decrease of 179,496 gallons from the quantity used in the previous year (1,891,356 gallons), and is 566,639 gallons less than the average (2,278,499 gallons) for the last ten years.

The quantity of rum distilled from molasses during the fiscal year (1,294,157 gallons) shows a decrease of 196,071 gallons from the product of the previous year (1,490,228 gallons), and is 433,399 gallons less than the average product (1,727,556 gallons) for the last ten years.

GENERAL BONDED WAREHOUSES.

In the annual report for the preceding fiscal year objection was made by my predecessor in office to the use of this class of warehouses for temporary occupancy by certain kinds of distilled spirits for which the warehouses served merely as distributing agencies, and not as a convenient place for permanent storage while the spirits aged and ripened.

Recommendation was therefore made that the statute in this regard be so amended as to limit the privilege of storage in these warehouses to such spirits as may be approved by this office, and that a charge be made for the general bonded-warehouse stamps and rewarehousing stamps which are affixed to packages of spirits upon transfer from a distillery warehouse to a general bonded warehouse, or from one general bonded warehouse to another, such as would defray the expense to which the Government is put for the supervision and control of these warehouses.

Concurring in this view of the question, I have pursued the policy of restricting the number of these warehouses, and have discouraged the removal thereto of other spirits than those which properly seek storage there for long terms in the due course of preparation for use as beverages.

I am satisfied that the expense of the care and official supervision of these warehouses should not be borne by the Government, but should fall wholly upon the parties benefited by their maintenance. The reimbursement of this expense can most easily and conveniently be made by a proper charge for the stamps above mentioned, and I recommend that legislation be had for this purpose.

Should this recommendation be adopted, and such charge be levied by means of the stamp as would fully reimburse the expenses necessarily incurred by the Government, it would greatly lessen the objection to the use of the warehouses by any class of spirits, inasmuch as every package would contribute its share to the discharge of the cost which its presence in the warehouse occasions, and no distinction between different kinds of spirits, in respect to the occupancy of these warehouses, would seem to be required.

DIVISION OF ASSESSMENTS.

The following statements relative to assessments, to spirits deposited in and withdrawn from distillery warehouses, general bonded warehouses and special bonded warehouses, the number and location of each of the special and general bonded warehouses, and the names of the proprietors thereof; to the stock of spirits in the United States October 1, 1897; to the exportation of spirits, fermented liquors, tobacco, snuff, cigars and cigarettes, and playing cards in bond; to the exportation of tobacco, cigars, fermented liquors, and stills, with benefit of drawback; to the use of grape brandy, tax free, in fortifying wines, are prepared from reports in the division of assessments.

The statements relative to assessments are to be found on this page and the page following; statements relative to operations in distillery warehouses commence on page 96 (see also special index on pages 94 and 95); to operations in general bonded warehouses, on page 156, and in special bonded warehouses on page 176; to exportations in bond free of tax from special bonded warehouses, on page 180; as to tobacco, snuff, cigars, and cigarettes, on page 186; as to playing cards, on page 187; to exportations with benefit of drawback, on page 187, and to the use of brandy in fortifying wines, on page 185.

INCREASED WITHDRAWAL OF TAX-PAID SPIRITS.

The quantity of tax-paid spirits (64,324,367.9 gallons) withdrawn from distillery warehouses during the fiscal year ended June 30, 1897, is greater that the quantity (60,635,356.1 gallons) withdrawn from distillery warehouses during the fiscal year ended June 30, 1896, by 3,689,011.8 gallons, the increase being distributed among the different kinds known to the trade as follows:

		Gallons.
Increase in withdrawals of—		
Bourbon whisky		1,785,127.2
Rye whisky		1,028,814.7
Rum		42,120.7
Miscellaneous		2,899,934.9
Total increase		5,755,997.5
Decrease in withdrawals of—	Gallons.	
Alcohol	650,319.8	
Gin	22,686.5	
High wines	26,052.5	
Pure neutral or cologne spirits	1,367,926.9	
Total decrease		2,066,985.7
Net increase		3,689,011.8

If the quantity, 956,760 gallons (as stated by the Chief of the Bureau of Statistics), of exported domestic spirits reimported during the year upon which should have been paid a customs duty equal to the internal-revenue tax be added, the quantity virtually withdrawn from distillery warehouses during the year ended June 30, 1897, is found to be 65,281,127.9 gallons, or 3,942,651.5 gallons more than during the year 1896, including the 703,520.6 gallons reimported and tax-paid during that year.

There were also tax-paid withdrawals of spirits from general bonded warehouses amounting to 4,336,670.6 gallons which should be added to the above, making the total domestic spirits, exclusive of fruit brandy, withdrawn from bond on payment of the tax, or of a duty equal to the tax, 69,617,798.5 gallons, or 2,036,291.1 gallons more than the quantity (67,581,507.4 gallons)*a* so withdrawn during the fiscal year ended June 30, 1896.

I have the honor to submit below a copy of my letter addressed to you April 3, 1897, relative to the depressed condition of the distilling industry June 30, 1896; see also a statement showing the number of seizures of illicit stills, etc., during the year ended June 30, 1897, given in the opening pages of this report.

It will be noted from the foregoing statement as to tax-paid withdrawals of spirits that the situation in this particular was not much improved during the year ended June 30, 1897, and from what follows, that during this last-named year the illicit distillation of spirits has made decided progress.

TREASURY DEPARTMENT,
OFFICE OF THE COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., April 3, 1897.

SIR: In compliance with suggestion made by you in recent conference on the subject I have the honor to submit the following data from the records of this office bearing on the prostrated condition of the distilling industry and trade, and the reduction of the revenues from that source since the passage of the act of August 28, 1894, increasing the tax on distilled spirits.

a The quantity stated on page 136 of the report for 1896 (67,554,760.5 gallons) should be increased by 26,346.6 gallons, found to have been withdrawn after that statement was prepared.

I have devoted some time to investigating the question whether this condition is the result of the general business depression that has prevailed in the country during the last three years or of the increase in the tax from 90 cents to $1.10 per gallon, or of both. I am convinced that while the depression in general business may have had some effect on the distilling industry, the reduction of revenues is mainly due to the increase in the tax to a rate above the revenue-producing line.

In support of this conclusion I beg to call attention to the fact that there would seem to be no reason why all industries bearing an internal-revenue tax should not have suffered in like proportion from a general cause. That this has not been the case is evident from the following tables, showing directly the production of distilled spirits during the thirty months ended August 31, 1894, and during the thirty months from September 1, 1894, to February 28, 1897, and from the additional tables showing the comparative receipts, during the two periods named, from tobacco, fermented liquors, and distilled spirits, and by implication, the comparative falling off in the production of the articles named during the latter period.

QUANTITY, IN TAXABLE GALLONS, OF SPIRITS PRODUCED AND DEPOSITED IN DISTILLERY WAREHOUSES, AND THE QUANTITY WITHDRAWN FROM SUCH WAREHOUSES TAX-PAID, FOR THE PERIODS STATED.

Deposited during 30 months ended August 31, 1894	277,127,809.8
Deposited during 30 months beginning September 1, 1894	194,038,705.5
Falling off in production during last 30 months	83,089,104.3
Withdrawn tax-paid during 30 months ended August 31, 1894	254,192,712.9
Withdrawn tax-paid during 30 months beginning September 1, 1894	151,346,340.6
Falling off in tax-paid withdrawals during last 30 months	102,846,372.3
Receipts from distilled spirits during the 30 months ended August 31, 1894	$231,182,893.06
Receipts from distilled spirits during the 30 months beginning September 1, 1894	164,151,439.59
Falling off in receipts during 30 months from September 1, 1894	67,031,453.47
Receipts from tobacco during the 30 months ended August 31, 1894	75,985,779.20
Receipts from tobacco during the 30 months beginning September 1, 1894	75,016,527.63
Falling off in receipts during 30 months from September 1, 1894	969,251.57
Receipts from fermented liquors during the 30 months ended August 31, 1894	79,914,123.44
Receipts from fermented liquors during the 30 months beginning September 1, 1894	78,327,398.48
Falling off in receipts during 30 months from September 1, 1894	1,586,724.96

Percentage loss in receipts from—	
Distilled spirits	16.95
Tobacco	.64
Fermented liquors	1.00

It will be observed that while the loss during the second period in receipts from fermented liquors was only 1 per cent and from tobacco less than 1 per cent, the decrease in receipts from distilled spirits was nearly 17 per cent.

The effect of the greatly increased incentive to fraud furnished by the present high rate of tax is shown by the following facts:

Since the passage of the act referred to the number of illicit distilleries and of registered distilleries operated illicitly has increased from 1,016 to 1,905. The number of arrests for violation of the internal revenue-laws has increased from 614 to 839.

The number of registered grain distilleries in the United States averages annually about 1,600. Of this number one-half is the average number operated during each year. Of the 1,600 a little less than half have registered daily capacity of four bushels or less, 470 have a registered capacity of more than four but less than twenty bushels, and 409 have a capacity of twenty bushels or more. The records of this office show that since the increase of the tax a very large per cent of the smaller distilleries operate each year, and that the per cent of the larger distilleries operating during the year has decreased very considerably.

In many sections of the country where these small distilleries are located it is found impracticable to sell forfeited spirits at a price equal to the amount of tax due on them. In these same sections it is found that distillers and dealers have agreed to furnish customers with distilled spirits at much less than the tax thereon, provided the purchasers agree to return the stamps intact or the barrel heads bearing the stamps. Other evidence is in the possession of this office that in the sections where the small distilleries are operated spirits have been offered for sale at from 40 to 60 cents a gallon. Within the last thirty days 14 barrels of illicit spirits, amounting to more than 300 gallons, have been discovered in Nebraska and followed by the agent into Montana and there seized. Information has reached this office that seven illicit distilleries were operated in the State of Kansas during last year and that four are operating there now, showing that illicit distillation is extending into sections of the country where it has never before existed.

Attention is also called to the fact that with the reduced price of grain and the increased product from 56 pounds, made possible by modern machinery and methods, the ad valorem tax at a specific tax of $1.10 per gallon is greater than it was when specific tax was $2 per gallon in 1866. The fact that the purchasing power of $1.10 is now much greater than that of $2 was when that tax was imposed is a further temptation to fraud.

The following table shows the revenue-producing results under the several rates of taxation on distilled spirits since the establishment of the present internal-revenue system:

CONSUMPTION PER CAPITA OF DISTILLED SPIRITS FROM MATERIALS OTHER THAN FRUIT, AND TAX THEREON AND REVENUE THEREFROM.

This table would indicate that the highest revenue-producing rate was 70 cents per gallon.

I would suggest as a remedy for the reduction in revenue and other evils above referred to that the tax on distilled spirits be promptly reduced to 90 cents, possibly to 70 cents per gallon, that a special tax of not less than $500 or more than $1,000 per annum be imposed on the industry of distilling, the amount to be determined by the capacity of the distillery, that only stills having a capacity of 20 gallons or more

shall be entitled to registry and survey, or permitted to operate, that the relief from certain provisions of the law relating to the process of distilling, now afforded under section 3255a, Revised Statutes, in case of distilleries of a certain capacity, be withdrawn, and that all distilleries, regardless of size, be required to conform strictly to said provisions of law, and that all distilled spirits placed in wooden packages or jacketed shall be required to be stamped with a wholesale liquor dealer's or rectifier's stamp, and that all persons selling packages of this kind shall be regarded as wholesale liquor dealers and required to make all reports and keep all records connected with that business.

Very respectfully,

G. W. WILSON, *Acting Commissioner.*

The SECRETARY OF THE TREASURY.

PROPOSED TAX ON METHYL ALCOHOL.

In connection with the question of securing additional revenue from distilled spirits by taxing spirits other than the ethyl alcohol now taxed, the following letter in which the proposition is made to levy a tax on methyl alcohol is now submitted for your further consideration:

TREASURY DEPARTMENT,
OFFICE OF THE COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., July 14, 1897.

SIR: I have the honor to respectfully invite your attention to the advisability of legislative action looking toward the supervision and possibly the taxing of purified wood or methyl alcohol, and desire to submit for your consideration certain facts which have recently been brought to the notice of this office, and certain results which have been arrived at in a preliminary investigation of this product.

The increase of tax upon distilled spirits by the act of August 28, 1894, greatly stimulated the production and use of wood spirits, and with this increased use has come an improvement in methods of manufacture and especially of rectifying or purifying. To such a degree of perfection have the manufacturers attained, that samples of the product of one establishment have been received by this office from revenue agents and special gaugers who were hardly able to distinguish it from grain spirits, and who found that rectifiers considered it potable and were willing to mix it with their whiskies. This is shown by attached report from Revenue Agent W. L. Pitts, dated May 10, 1897. This spirit is produced by the Manhattan Spirit Company, Buffalo, N. Y., and called "Columbian spirits." It is sold by them at $1.50 per gallon, double the price of their other grades of wood alcohol. Of this article Mr. Pierce, president of the Manhattan Spirit Company, says in his testimony before the Joint Select Committee appointed to consider the question of alcohol in the manufactures and arts (Senate Report No. 1141, p. 391):

"Mr. PIERCE. We reduced the price of the 97 per cent and the 95 per cent, but not of the Columbian spirit. We are selling a comparatively small amount of Columbian spirit, but in regard to that product I wish to say that it is absolutely pure methyl alcohol. It contains no impurities whatever, and it closely approaches grain alcohol in odor. We discovered how to make it in the Columbian year, and we called it Columbian spirit. We have been steadily improving on the quality, and we look forward, if we are permitted to exist, to making that product so fine that it may be used in the manufacture of perfumes and for many articles where it is not now used. It has been constant progress with us, and we also hope to be able to reduce the price of that grade very materially in the future, as our improved methods of manufacture warrant it."

A sample of Columbian spirit was examined in the laboratory of this office, and compared with chemically pure methyl alcohol made in Germany, with the following results:

	Chemically pure methyl alcohol.	Columbian spirit.
Specific gravity at $\frac{155^\circ\ C}{15.5^\circ}$	80,112	79,747
Boiling point, °C	65.5	65.5
Iodoform test	None.	None.

The results of the above, and of other tests, show that the two spirits are nearly identical, and prove Mr. Pierce's statement that the Columbian spirit is "absolutely pure methyl alcohol" to be practically, though not quite technically, true.

The facts established are these: Highly purified methyl alcohol, an article heretofore confined to the chemical laboratory, is being made and sold in quantities at a low price. It is entirely devoid of the disagreeable and nauseating taste and smell of ordinary wood alcohol, due to its impurities, which constitute its distinguishing mark, and prevent its use for drinking purposes.

No one who is not an expert can distinguish between ethyl and methyl alcohols in their pure condition. They have the same high volatility, the same agreeable vinous odor, and the same biting, pungent taste. Both mix with water in all proportions. Consequently methyl alcohol could take the place of ethyl alcohol, partially or wholly, in most alcoholic beverages, and none but highly educated palates could detect the difference.

The next question is, how would this substitution affect the health of the consumer? The manufacturers of Columbian spirit claim that such substitution is out of the question on account of the injurious effects of methyl alcohol upon the system.

Following is an extract from the testimony of Mr. Pierce upon this point (p. 391):

"The CHAIRMAN. Do you know of any experiments which have been made recently to see whether wood alcohol can be made drinkable?

"Mr. PIERCE. No, sir.

"The CHAIRMAN. You have not heard of such experiments?

"Mr. PIERCE. No, sir.

"The CHAIRMAN. Do you think it is possible?

"Mr. PIERCE. No, sir; I know it is not. We have the obituary notices of a number of gentlemen who have tried it. It is impossible.

"I wish to make a statement from some chemical knowledge of the product. It makes no difference how pure we may make wood alcohol, you may remove every impurity, and you still have its deadly effect on the human system.

"Senator JONES, of Arkansas. What causes that?

"Mr. PIERCE. When it is taken into the stomach it evaporates immediately, and the autopsies which have been performed on the people who have died from drinking it have shown that every blood vessel leading to the heart burst. It accelerates the action of the heart. In fact, its use is advocated in the United States Pharmacopœia in certain cases for that purpose.

"Representative MCMILLIN. To accelerate the heart action?

"Mr. PIERCE. Yes, sir.

"Senator JONES, of Arkansas. Is there any perceptible difference in that effect between the refined spirits of the high grade which you make and the other grades?

"Mr. PIERCE. There is no difference. You can not remove that quality. I think if I were going to take some wood alcohol I would rather take the crude, because it would be so nauseous to my stomach that perhaps I should be relieved of it before it had time to get in its deadly work.

"Senator JONES, of Arkansas. Does it kill everybody who drinks it, or does it only occasionally kill a man?

"Mr. PIERCE. It kills every man. You could take a teaspoonful without killing you, but a wineglassful would do it."

A manufacturer of crude wood alcohol, however, Mr. Clark, who testified before the same committee, held quite different views on this subject:

STATEMENT OF FRANKLIN S. CLARK.

"Mr. CLARK. I wish to state that in western North Carolina I have a factory for making wood alcohol. In Wilmington, N. C., I have another factory for refining wood alcohol. I have been engaged in the business for eleven years, under the supposition that the present conditions would continue. I believe if we have free alcohol it will stop both of my factories. That is the first thing.

"Another point is that with free alcohol I do not see how any means can be adopted to prevent its being used for drinking purposes, because wood alcohol is made so refined now that when it is mixed with common alcohol the mixture can be used for drinking purposes.

"The CHAIRMAN. In what proportion?

"Mr. CLARK. In the proportion of about 10 per cent. If you take 50 per cent of grain alcohol and 50 per cent of wood alcohol, and dilute it with water down to one-half, it has not a very distasteful effect upon the tongue, and if you take it down to 10 per cent I believe it may be used for drinking right along.

"The CHAIRMAN. Do you know that that is done, or is it simply your opinion that it might be done?

"Mr. CLARK. It is merely my opinion from the mixtures I have made and have had my men try to see whether they could drink it. I understand that wood alcohol is used to adulterate liquors. That is simply what I have heard. I do not know that it is true. I am firmly convinced that 10 per cent of wood alcohol in grain alcohol could be drank.

"The CHAIRMAN. You do not think that wood alcohol ought to be used in any way for drinking purposes without paying a tax?

"Mr. CLARK. No; I do not. But if you have free alcohol and methylation I see nothing to prevent a large amount of methylated spirits from being used for drinking purposes. That is a thing very easily tested. All you have to do is to take a sample of refined wood alcohol and common alcohol and mix them in that proportion and dilute them with water, and almost any man can drink it."

Compare, also, Mr. Pierce's admission, in another part of his testimony (p. 398):

"The CHAIRMAN. Do people drink methylated spirits?

"Mr. PIERCE. I would not want to do so, but they do somewhat. That is to say, a great many people in England do."

To disprove the radical statements of Mr. Pierce, I may here instance the fact that Dr. C. A. Crampton, the chemist of this office, in an experiment upon himself a few weeks ago, took over 2 ounces of Columbian spirit internally, in half-ounce doses, suitably diluted, the whole being taken inside of five hours. No serious discomfort followed. This result, in the case of a person unaccustomed to alcohol, is sufficient to prove that methyl alcohol has not the serious toxic effect upon the human system that would be inferred from the testimony quoted. It is misleading, under any circumstances to call methyl alcohol a "poison," and to instance deaths which have occurred from taking it as establishing its character as such. All the substances used by man as stimulants or narcotics are poisons in the sense that they produce an injurious effect when taken in sufficient quantities. Ethyl alcohol is a very active therapeutic agent, large quantities producing immediate death by nerve paralysis, less quantities death within a few hours by venous congestion, and its habitual use producing numerous inflammatory and tissue-destroying diseases. The physiological effect of methyl alcohol is very similar, and the important point to be determined is the relative toxicity of the two agents.

This has been the subject of many scientific experiments, especially in Europe, and this office is now engaged in collecting the recorded results. For the purpose of this report it will be sufficient to quote the description of the physiological action of the different alcohols, including ethyl and methyl, as given by Brunton, in his work, "Pharmacology, Therapeutics, and Materia Medica," page 648.

Speaking of methyl, ethyl, propyl, and amyl alcohols, he says:

"These alcohols have all a toxic action when given in sufficiently large doses. The general effect they produce on the organism appears to be much the same in all, viz, paralysis, affecting the nerve centers in the inverse order of their development. Their lethal power and the symptoms they produce are modified by their physical character, such as their solubility in water, and their volatility, for if they are not readily soluble in water they can not be readily absorbed, and probably will not be readily excreted. Their toxic power increases with their atomic weight, so that a less quantity of the higher alcohols will produce death. This is shown in the following table by Dujardin-Beaumets. It will be noticed, however, that the lowest term and also the highest terms of the series form exceptions. This may possibly be due to rapid absorption as compared with excretion (p. 56) in the case of methylic alcohol, and to slow absorbtion in the case of œnanthic and caprylic alcohols:

Kind of alcohol.		Mean toxic dose in grams per kilogram weight of the animal.	
		Pure.	Diluted.
Nonfermented	Methylic alcohol, CH_4O	.....	7
Fermented	Ethylic alcohol, C_2H_6O	8	7.75
	Propylic alcohol, C_3H_8O	3.9	3.75
	(Icopropylic) alcohol (C_3H_8O)	.....	(3.7 to 3.8)
	Butylic alcohol, $C_4H_{10}O$	2	1.85
	Amylic alcohol, $C_5H_{12}O$	1.7	1.50
Nonfermented	Enanthylic alcohol, C_7H_8O	8	.....
	Caprylic alcohol, $C_8H_{18}O$	7 to 7.5	.....

"All the alcohols produce symptoms, which are divided by Dujardin-Beaumets into three stages. These stages are modified by (*a*) the kind of alcohol used, (*b*) its quantity, and (*c*) the resistance of the subjects.

"Ethylic alcohol has the most typical action, and in poisoning by it all the stages succeed one another in regular order. In the case of the other alcohols obtained by fermentation the stages are also regular, but the farther the alcohol is from ethylic, the less regular do the stages become. They succeed one another more rapidly, their character is less marked, and convulsive phenomena appear.

"In the case of methylic alcohol the excitement is greater, the subsequent stages succeed one another more quickly, and reach their acme sooner; but if the dose be insufficient to cause death, the effects pass off more quickly.

"In the case of œnanthic and caprylic alcohol, the stages do not present the same regularity, and convulsions occur.

"All the alcohols now mentioned lower the temperature.

"On post-mortem examination after acute poisoning by alcohols, the blood, stomach, intestines, liver, lungs, and kidneys are found to be affected. It is possible, however, that some of these poisons are not to be regarded as specific consequences of the action of alcohol, but rather as due to the death by asphyxia which ensued from the respiratory paralysis. The blood is of a dark color, and forms clots in the heart. When the alcohol is given by the mouth the stomach and intestines are much congested and softened, the congestion being greater when the alcohol is undiluted. When the alcohol is injected subcutaneously, the stomach is little altered, but the intestine is congested, the congestion being probably due, according to Dujardin-Beaumets, to elimination of the alcohol by the intestinal mucous membrane. The liver is the gland most affected; it is congested, soft, and friable. The spleen is also gorged with blood, and soft. The lungs are congested with small extravasations, which are most abundant when the alcohol has been given by the mouth. Hemorrhages are observed in the kidneys, especially in the case of the non-fermented alcohols."

It will be seen from the above that this authority places the toxicity of methyl alcohol only about one-eighth higher than ethyl alcohol. More recent experiments seem to tend toward a greater difference, however, especially in chronic or long-continued use, the difficult elimination of methyl alcohol from the system making it more dangerous.

It may safely be concluded, however, that there is not enough difference in the toxicity of the two alcohols to prevent the consumption of methyl alcohol in spirituous beverages if it were substituted for ethyl alcohol. The possibility of such substitution of the pure, or partially purified, wood alcohol has been long recognized by other countries, as will be sufficiently evident from the following extract from the inland-revenue laws of Great Britain:

[Part XXX, section 133.]

"(1) Any liquid containing methylic alcohol so purified or otherwise prepared by filtration or any other process as to be free, wholly or partially, from any flavor or odor which would otherwise pertain to it, shall be deemed to be low wines, and to have been so prepared for the purpose of distilling spirits therefrom, and shall be chargeable with duty and otherwise subject to the regulations to which spirits are subject under part 1 of this act.

"(2) Provided that the Commissioners may, if they think fit, dispense with or modify those regulations with respect to any such preparation."

There can be no doubt of the urgent necessity for an official supervision and control of the manufacture and sale of the article in this country.

An enactment by Congress placing a sufficient tax upon it to pay the expense of its supervision (as in the case of filled cheese, for example) would be the very least that could be done to meet the exigencies of the matter.

There are many strong arguments, however, in favor of placing a revenue-producing tax upon it.

The raw material is abundant and cheap; the process of manufacture comparatively simple; the uses and applications are rapidly increasing, and the industry appears fully as well able to bear a reasonable tax as the grain-alcohol industry which it is supplanting.

Although the manufacturers do not admit that it is or can be used in beverages, they do urge its capability of replacing ethyl alcohol for many other purposes. And they claim that, if present conditions continue, in a very few years it will have superseded the taxed article entirely for all industrial uses, and for all medicinal purposes where it is used externally. Should these expectations be realized, and from present indications there is no reason whatever to doubt their realization, a very serious reduction in the amount of tax collected from distilled spirits by this office must be anticipated.

It is a fact not generally understood, perhaps, that a very considerable fraction of the tax paid upon distilled spirits is derived from alcohol used for other than beverage purposes. And it is also unfortunate that this office is unable, from the means at its disposal, to give an exact estimate of this amount.

Estimates previously made, however (see letter of Commissioner Miller to Secretary Carlisle, August 27, 1894), have placed the figure at 9,000,000 proof gallons, yielding a revenue of $10,000,000. A tax upon methyl alcohol at one-half the rate now imposed upon ethyl alcohol, viz, 55 cents per proof gallon, would yield as follows:

Upon present production, amounting to 1,500,000 gallons, equal to 3,000,000 proof gallons (see Mr. Pierce's testimony, p. 368)	$1,650,000
Upon 9,000,000 gallons ethyl alcohol displaced	4,950,000
Total	6,600,000

This would go a considerable way toward making up the deficit, and would, in the opinion of this office, amply meet all the requirements of the case.

Respectfully yours, G. W. WILSON, *Acting Commissioner.*

The SECRETARY OF THE TREASURY.

SPIRITS LOST BY FIRE IN WAREHOUSES FOR THE LAST TWENTY-FIVE YEARS.

The following statement shows the quantity of spirits lost in distillery warehouses by fire during each of the last twenty-five calendar years. As it shows also the stock of spirits in warehouse at the close of each of the fiscal years 1872 to 1896, both inclusive, the percentage of loss on stock held may be readily computed:

EXPORTATION OF MANUFACTURED TOBACCO AND SNUFF IN BOND.

The quantity of manufactured tobacco removed from the place of manufacture in bond free of tax, now at the rate of 6 cents per pound during the year, also the quantity actually exported during the year and the quantity unaccounted for at the beginning and at the end of the year, are shown in the subjoined statement:

	Pounds.
Quantity unaccounted for July 1, 1896	893,288½
Quantity removed for export during the year ended June 30, 1897	12,009,189½
Total	12,902,477½
Quantity actually exported during the year ended June 30, 1897	12,327,042½
Quantity deficient on which tax was paid	6,809
Quantity unaccounted for at close of the fiscal year ended June 30, 1897	568,626½
Total	12,902,477½

NOTE.—The above statements relate to tobacco withdrawn from factories bonded under internal-revenue laws. In arriving at the actual quantity of domestic tobacco exported from the United States it would appear to be proper to add the quantity manufactured in and exported from manufacturing warehouses, as follows: 4,870,554 pounds. This would make the total quantity removed during the year 1897, 17,197,596½ pounds.

EXPORTATION OF CIGARS AND CIGARETTES IN BOND.

	Cigars at $3 per 1,000.	Cigarettes at 50 cents per 1,000.

a This includes 27,000 cigars removed for export in the First district of Pennsylvania prior to July 1, 1896, but not so reported until after that date.

Upon comparing the foregoing statements as to manufactured tobacco, cigars, and cigarettes with those for the fiscal year ended June 30, 1896, the increase in 1897 as to cigars and cigarettes and the decrease as to tobacco are found to be as follows:

	Increase.	Decrease.
Tobacco ..... pounds	.....	1,025,829½
Cigars ..... number	405,783	.....
Cigarettes ..... do	237,321,560	.....

The increase as to cigarettes continues to be the prominent feature of this class of exportations. The business of exporting cigarettes has grown during the past fourteen years as follows:

SPIRITS IN THE HANDS OF WHOLESALE DEALERS AND RECTIFIERS.

[Compiled from reports of collectors based upon statements made to them by dealers and rectifiers.]

It appears from the preceding table (on pp. 192 and 193) that the quantity of spirits, tax or duty paid, held by wholesale liquor dealers and rectifiers October 1, 1896, was 15,063,725 gallons, the quantity so held October 1, 1897, being 12,877,630 gallons. The quantity of domestic and foreign spirits, respectively, and the aggregate held October 1, each year from 1878 to 1897, both inclusive, are as follows:

DISTILLED SPIRITS IN THE UNITED STATES OCTOBER 1, 1897.

The quantity of distilled spirits in the United States (except what may be in customs bonded warehouses and in fruit-brandy distilleries) on the 1st day of October, 1897, was 173,742,898.8 gallons, this quantity being distributed as follows:

	Gallons.
In distillery warehouses	127,696,314.8
In special bonded warehouses	1,586,205.2
In general bonded warehouses	2,329,416.9
In transit between distillery warehouses and general bonded warehouses	32,031.9
In hands of wholesale liquor dealers	12,877,630
In hands of retail liquor dealers	29,221,300
Total	173,742,898.8

In making the above computation the average stock of each retail liquor dealer in the United States is estimated at 150 gallons.

The foregoing statement of production and tax-paid withdrawals of distilled spirits during the first three months of the current fiscal year shows an increase of such withdrawals over those made during the corresponding portion of the fiscal year 1896 of 3,362,451.5 gallons, yielding an increased tax amounting to $3,698,696.65, and as compared with the previous year, 1895, of 4,594,821.8 gallons and of $5,054,303.98 tax.

As the stock on hand in the United States is also less than it was October 1, 1896, by 13,545,713.1 gallons, it may reasonably be expected that the increase in receipts from distilled spirits will be maintained throughout the year.

SPIRITS WITHDRAWN FOR BOTTLING PURPOSES.

Owing to unavoidable delays in the preparation of strip stamps and case stamps for spirits bottled in bond under the supervision of internal-revenue officers under the bottling act of March 3, 1897, withdrawals of spirits tax-paid for such bottling were not made until August, 1897, the quantity so withdrawn in that month being 5,794.8 gallons, and the quantity so withdrawn in September, 1897, being 35,555.2 gallons.

OLEOMARGARINE.

The following statements, showing operations under the act of August 2, 1886, defining butter and imposing a tax upon and regulating the manufacture, sale, importation, and exportation of oleomargarine, comprise—

First. A summary of operations at oleomargarine manufactories during the fiscal year ended June 30, 1897; also a summary of operations during the past two fiscal years, and by months covering the period from November 1, 1886, to June 30, 1897.

Second. A statement of the receipts from all classes of taxes imposed by the oleomargarine law for the year ended June 30, 1897.

Third. A statement, by States and Territories, showing the number of establishments for which special tax was paid to carry on during the fiscal year ended June 30, 1897, the business of manufacturing and dealing in oleomargarine; also, in aggregate, of all persons who paid oleomargarine special taxes for the twelve months ended June 30, 1896.

Fourth. A statement of the total production and of total receipts from all oleomargarine sources for each fiscal year since the oleomargarine law took effect.

It appears from the subjoined table that the average monthly production of oleomargarine under the operations of the law has been as follows:

	Pounds.
During the eight months ended June 30, 1887	2,711,828
During the fiscal year ended June 30—	
1888	2,860,460
1889	2,972,002
1890	2,693,669
1891	3,699,367
1892	4,030,346
1893	5,602,024
1894	5,801,853
1895	4,746,508
1896	4,237,769
1897	3,794,267

It also appears that the average monthly quantity withdrawn from factories on payment of the tax was as follows:

	Pounds.
During the eight months ended June 30, 1887	2,592,946
During the fiscal year ended June 30—	
1888	2,707,430
1889	2,821,970
1890	2,566,494
1891	3,601,292
1892	3,909,625
1893	5,371,989
1894	5,508,004
1895	4,469,686
1896	3,978,482
1897	3,541,636

Section 41, act of October 1, 1890, requiring wholesale dealers in oleomargarine to keep books and render returns in compliance with the regulations authorized to be made by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, provides no penalty for the violation of this section. The courts have decided that none of the penalties denounced in the act governing the manufacture and sale of oleomargarine are applicable to this section. Such a penalty is essential to an effective enforcement of the law. I therefore recommend that the section above referred to be amended by the enactment of a penalty clause.

FILLED CHEESE.

The following statements showing operations under the act of June 6, 1896, defining cheese and imposing a tax upon and regulating the manufacture, sale, importation, and exportation of filled cheese comprise—

First. A summary of operations at filled cheese manufactories during the fiscal year ended June 30, 1897.

Second. A statement of the receipts from all classes of taxes imposed by the filled-cheese law for the year ended June 30, 1897.

Third. A statement, by States, showing the number of establishments for which special tax was paid to carry on the business of manufacturing and dealing in filled cheese during the fiscal year ended June 30, 1897.

Fourth. A statement of the production and receipts from all filled-cheese sources from September 4, 1896, to June 30, 1897.

It appears that the average monthly production during the nine months ended June 30, 1897, under the operations of the law, was 184,785 pounds, and the average monthly quantity withdrawn from the factories on payment of the tax was the same.

There were no withdrawals for exportation.

The largest production month during the nine months ended June 30, 1897, was March, and the quantity produced that month was 305,346 pounds.

There were 1,663,067 pounds of filled cheese produced at manufactories during the nine months ended June 30, 1897, and the tax at 1 cent per pound was paid upon the entire quantity and the same withdrawn from factory.

The following statement shows the quantity of filled cheese produced and withdrawn, tax-paid, from manufactories monthly from September 4, 1896, to June 30, 1897:

SUGAR BOUNTY.

At the close of the fiscal year ended June 30, 1896, there were pending in this office 493 approved claims for bounty of eight-tenths of a cent per pound on sugar produced in the United States from beets, sorghum, and sugar cane during that part of the fiscal year ended June 30, 1895, comprised in the period commencing August 28, 1894, and ending June 30, 1895, both days inclusive. These claims as approved by this office amounted in the aggregate to the sum of $6,085,156.66.

The act of March 2, 1895 (28 Stat. L., 933), appropriated the sum of $5,000,000 for the payment of claims of this class, and the amount of these approved claims having exceeded the amount appropriated, the sum appropriated ($5,000,000) was prorated among the claimants entitled thereto.

This appropriation being available after June 30, 1896, the claims were scheduled and the amounts involved therein were certified by this office to the accounting officers of the Treasury Department for payment.

After this payment pro rata the amounts so paid were charged to the individual accounts of the sugar producers kept in this office, which accounts, at the close of the year ended June 30, 1897, showed in each case the amount of the approved claim, the amount paid, and the balance of the claim over and above the payment. These balances in the aggregate amounted to $1,085,156.66.

The Congress of the United States, under the sundry civil act approved June 4, 1897 (30 Stat. L., 30), appropriated the sum of $1,085,156.66 for the purpose of paying the sugar producers the balances due them under the terms of the act of March 2, 1895 (28 Stat. L., 933).

This last appropriation was not available until after the close of the fiscal year ended June 30, 1897, but immediately thereafter, to wit, July 1, 1897, the amount appropriated was applied to the payment of the balances due on the claims, and the accounts were closed.

In addition and supplemental to the amount appropriated under the sundry civil act approved June 4, 1897, the Congress of the United States, under the general deficiency act approved July 19, 1897 (30 Stat. L., 140, 141), authorized the settlement and payment of an account in favor of Andrew H. Gay, allowing to him out of the appropriation of $5,000,000 under the act of March 2, 1895, the sum of $7,196.38, being his pro rata share of said appropriation which had been withheld on account of a judgment in his favor for said bounty rendered in the United States circuit court for the eastern district of Louisiana, which was affirmed in the Supreme Court of the United States.

In addition to the principal sum mentioned in this case, interest was allowed thereon at the rate of 4 per centum per annum from the date of the payment until the date of the passage of the general deficiency act, which interest amounted to $455.04.

It was also provided by the general deficiency act of July 19, 1897, that an account should be stated and settled in favor of the Realty Company, allowing to this company out of the appropriation in the sundry civil act of March 2, 1895, of $238,289.08 for bounty on sugar produced prior to August 28, 1894, the sum of $5,576.97, being the

amount of their claim in said appropriation, and for recovery of which judgment had been rendered and affirmed, as in the case of Andrew H. Gay.

In addition to the principal sum paid to the Realty Company, interest was allowed thereon from the date of the judgment until the date of the passage of the act of July 19, 1897, which interest amounted to $352.65.

Attention is called to the following tabulated statements, which show concisely the quantity of sugar produced in the United States which reached the bounty point; that is, sugar which tested not less than 80 degrees by the polariscope and the amount of bounty paid thereon from July 1, 1891, to June 30, 1895.

It should be borne in mind that from July 1, 1891, to August 27, 1894, date of repeal of bounty law, "Act of October 1, 1890," there were two rates of bounty, to wit: A bounty of 2 cents per pound on all sugars that tested not less than 90 degrees, and a bounty of 1¾ cents per pound on all sugars that tested less than 90 but not less than 80 degrees by the polariscope.

Upon all sugars produced after August 27, 1894, and previous to July 1, 1895, which tested not less than 80 degrees, a bounty of eight-tenths of a cent per pound was allowed. The act of March 2, 1895, provided but one rate of bounty for all grades of sugar manufactured after August 27, 1894.

NUMBER AND AMOUNT OF CLAIMS APPROVED FOR BOUNTY ON SUGAR, TESTING NOT LESS THAN EIGHTY DEGREES BY THE POLARISCOPE, PRODUCED IN THE UNITED STATES BY LICENSED SUGAR PRODUCERS, FROM BEETS, SORGHUM, AND SUGAR CANE DURING THE BOUNTY PERIOD COMMENCED AUGUST 28, 1894, AND ENDED JUNE 30, 1895, AND AMOUNT OF BOUNTY PAID DURING THE YEAR ENDED JUNE 30, 1897.

The quantity of bounty-paid sugar produced in the United States from beets, sorghum, sugar cane, and maple sap from July 1, 1891, to June 30, 1895, was as follows:

[Reported in pounds.]

Kinds of sugar.	Net production during fiscal year ended June 30—				Production in four years.
	1892.	1893.	1894.	1895.	
Cane sugar	367, 752, 306	455, 141, 381	611, 156, 922	762, 377, 697	2, 196, 428, 306

STATEMENT SHOWING THE AMOUNT OF BOUNTY PAID FROM JULY 1, 1891, TO AND INCLUDING THE FIRST DAY OF JULY, 1897, THE BOUNTY PAID AFTER JUNE 30, 1895, ACCREDITED TO THAT YEAR.

Kinds of sugar on which bounty was paid.	Net bounty paid in fiscal year ended June 30—				Total bounty paid.
	1892.	1893.	1894.	1895.	
Cane sugar	$7, 077, 316. 21	$8, 763, 830. 75	$11, 114, 599. 89	$6, 681, 493. 29	$33, 637, 240. 14

It will be observed that bounty payments by fiscal years do not relatively correspond with the quantity of sugar reported produced in such fiscal years, and this variance can be accounted for by the fact that payments on each year's product have to a large extent been made in the succeeding year.

DIVISION OF CHEMISTRY.

The samples examined in the laboratory at San Francisco, Cal., during the fiscal year ended June 30, 1897, were as follows:

Fortified sweet wines	995

The following table shows the number and character of samples examined in the work of the laboratory at Washington, D. C., during the past fiscal year:

Oleomargarine	23
Butter	29
Filled cheese	5
Cheese	43
Malt liquors	13
Fermented liquors other than malt	18
Distilled liquors	7
Fortified (and sweetened) wines	36
Ink	32
Mucilage and paste	11
Typewriter ribbons	12
Miscellaneous	11
Total	240

The number of samples of material suspected of being oleomargarine was 52, a decrease of 124 from last fiscal year.

The number of samples of material suspected of being filled cheese during the first year of the operation of the law was 48, of which number 5 proved to be filled cheese.

Under the provisions of the act of October 12, 1888, relating to the adulteration of food and drugs in the District of Columbia, analyses were made by the chemist of the health office of the District under the control of this office of 44 samples of foods and drugs, including 35 samples of vinegar, 5 of olive oil, 2 of cream of tartar, and 2 of precipitated sulphur.

Of these samples, 41 were decided to be adulterated, and were so certified to the district attorney for the District of Columbia.

I have the honor to be, very respectfully,

W. S. FORMAN,
Commissioner.

Hon. LYMAN J. GAGE,
Secretary of the Treasury.

NOTE.—The following example is given as an illustration of the use that can be made of Table C in connection with Table E in ascertaining the collections, approximately, for each State and Territory, on spirits, tobacco, fermented liquors, etc., for any year from 1864 to 1897, when such information is desired and a report for that year is not at hand. In the calculation of the percentages there is always a remainder. Hence, in reversing the process and multiplying the per cent (quotient) by the divisor the product will not equal the dividend exactly, but it will be so near to it as to answer most practical purposes.

The per cent of spirits for Illinois in 1885 was 30.4346. (See p. 246, Rep. 1890.) The total collections on spirits in the United States that year were $67,511,208.63. (See p. 333, Rep. 1890.) $67,511,208.63 × 30.4346 = $20,546,766.30. The actual collections were $20,546,765.19 (see p. 27, Rep. 1885), showing a difference of only $1.11 between the actual collections and the collections as obtained by calculation.

* Balance of collections not reported prior to final settlement of the collector's account.

D.—Appendix No. 1, showing the Differences between the Internal-Revenue Collections in the Districts, States, Territories, and Years below named, as Reported by Collectors and Published in the Several Annual Reports of the Commissioner, and the True Collections.

[Note.—These differences were mostly discovered at the final settlement of the accounts of such collectors as have retired from office after the reports for the years in which they occurred had been printed Hence their appearance in this form.

To ascertain the exact amount collected in any one of the following-named districts, States, or Territories prior to July 1, 1896, add to or subtract from, as the case may be, the collections for that district, State, or Territory, in the "total" column in Table D, the sum or sums entered opposite the same district, State, or Territory in this appendix. The result will be the aggregate amount collected.

On pages 358-361 the signs (+) and (—) are used to denote the amounts to be added and subtracted respectively.]

* A part of the first proviso of section 59, act of July 20, 1868, reads as follows: "A tax of $4 on each barrel, counting 40 gallons of proof spirits to the barrel, shall be assessed and collected from the owner of any distilled spirits which may be in bonded warehouse at the date of the taking effect of this act, to be paid whenever the same shall be withdrawn from such warehouse." This proviso, in effect, makes the tax 60 cents per gallon on 24,383,951 gallons in warehouse at the time of the passage of that act.

† Section 56 of act approved July 20, 1868, provided that all distilled spirits in bonded warehouse at the time of the passage of that act not withdrawn within nine months should be forfeited to the United States. The act of April 10, 1869, extended the time of the withdrawal of such spirits to June 30, 1869, but imposed a tax of 1 cent per gallon for each month after April 20, 1869. The receipts on account of this additional tax were $51,695.27.

NOTE.—The act of July 1, 1862, went into operation September 1, 1862. The act of March 3, 1863, provided that the tax on fermented liquors should be 60 cents per barrel from the date of the passage of that act to April 1, 1864. Hence the tax of 60 cents per barrel having expired by limitation April 1, 1864, the tax of $1 per barrel under act of July 1, 1862, was again revived, and this rate, under different acts, has continued in force from and including that date.
